OBJECTIVE

To strive for excellence in the Industry-with dedication, focus and positive attitude,to utilize my knowledge and skills in the best possible way for the fulfillment of Organizational goals.

SKILLS

- Programming languages-c, python ,java
- Web technologies - Html,css, javascript
- Database -my sql
- Non technical -communication, leadership

EDUCATION

Degree / Course	University / Board	Percentage / CGPA	Year of passing
Btech-IT	JNTUH	70	2025
Intermediate(MPC)	State board of Intermediate	93	2021
SSC	SSC	9.8	2019

PROJECTS

Unsupervised machine learning for managing safety accidents in railway stationa

The project focused on enhancing safety management in railway stations by leveraging unsupervised machine learning. Using real-time data from IoT sensors, surveillance cameras, and historical incident reports, developed models to proactively identify and mitigate safety risks.

Machine learning for web vulnerability detection

Machine learning enhances web vulnerability detection by analyzing patterns in web traffic to identify threats like SQL injection and XSS. It starts with gathering data, including both normal and malicious web requests, and then extracting relevant features, such as URL structures and request parameters.

CERTIFICATIONS

- Got certificate for completion of python essential for beginners in mindluster
- Got certificate for completion of the online course in front end development -Greatlearning
- Got certificate for completion of 3 days bootcamp of html and css -letsupgrade
- Got certificate for completion of hp online course IT for business success

INTERESTS

Learning new things , Travelling , Reading

HOBBIES

Listening music , playing games, watching movies

STRENGTHS

- I love working with new challenges and Easy to adapt any kind of environment
- Self-motivating Nature and Good grasping skills

ADDITIONAL PERSONAL INFO

Address	4-50b,chinna gudipadu, Dornala, Prakasam, Andhra Pradesh
Languages	English, Telugu
